Dear Freedom of Information Response (Our Ref: K/20/362)

Thank you for your Freedom of Information (FOI) request dated 16 September 2020, reference K/20/362.

Your request read:

- “The percentage of academic staff who identify as BAMER and female broken down by academic rank, and
- The percentage of students who identify as BAMER and female.”

The University of Leeds holds some of this information. We understand “BAMER” to refer to individuals who identify as Black, Asian, Minority Ethnic Groups and/or Refugee. If this is not the definition you intended, please contact us to clarify what information you are seeking.

We do not record whether an individual either currently is or has ever been granted leave to remain on humanitarian grounds (sometimes known as being ‘granted asylum’ or ‘refugee status’). Applicants for both job roles and courses of study are required to demonstrate that they are eligible to work or study. Eligibility may be through citizenship, leave to remain, visa status etc. and so their status as someone who has previously claimed or been granted leave to remain on humanitarian grounds is not, in and of itself, relevant.

Please note that it is not a requirement for staff or students to share ethnicity data with the University and therefore we do not hold ethnicity data for all members of the university community. The information we do hold is set out in the table below. We have excluded from our calculations all members of staff or students whose ethnicity is recorded as ‘unknown’ or is not recorded at all. “Students” includes both undergraduate and postgraduate students, and home, EU and international students.

Please note that figures have been rounded to the nearest percent.
