Dear

**Freedom of Information Response (Our Ref: K/21/334)**

Your original request read:

“I'd like to make a freedom of information request please.
  o For each of the five years from 2017/18 to 2020/21
    • For each of undergraduate (A100) and graduate (A101) medicine course
      ▪ In each year group of the ongoing course (Y1, Y2, Y3..etc.)
    • For each of overseas and domestic students
      o The number of places available and
      o The number of places filled”

Your clarified request read:

“Thanks for your mail and feedback. I think the easiest way to explain the data I'm after is to provide a table - attached. I've simplified the request a bit as the key things I'm looking at are:
  • Attrition over the duration of the course
  • Whether this has changed over time
  • Whether it is different in graduate entry to undergraduate entry
  • Whether it is different in domestic vs. overseas students (relating to fee status)

Domestic means any student paying UK fees (generally £9250); overseas is anyone paying the non-domestic tariff.

I've removed the places offered/filled detail; I just need the numbers registered each year.

The time series allows me to see how the number originally registered as first years reduces as students leave the course for whatever reason (fail exams; give up; die; whatever).”

The University of Leeds holds this information, which is disclosed in the attached spreadsheet.
