HPSC240001

History of Psychiatry and Mental Illness

Time allowed: ONE hour

Answer THREE questions from Section A, and ONE question from Section B

Section A and Section B carry an equal weight of marks

TURN OVER
Section A
Answer only THREE out of the five questions.

1. What was the difference between delusional (or partial) insanity and emotional (or moral) insanity to Victorian psychiatrists?
2. For what did Julius Wagner-Jauregg win the 1927 Nobel Prize in Physiology or Medicine?
3. What did the Lunacy Act 1845 achieve?
4. How did the DSM-III change the approach of psychiatry?
5. What was the ‘non-restraint’ movement?

Section B
Answer only ONE question.

1. What influence has Michel Foucault’s 1960 thesis (later published in English as Madness & Civilisation) had on psychiatry, and the history of psychiatry, since it was first written?

OR

2. How have psychiatric diagnoses reflected prevailing stereotypes of gender, race or class over the last 200 years?
